

JESHIKO J

chandranjeshiko@gmail.com | +91-7395881571 | Kanyakumari, TN | linkedin.com/in/JeshikoJ | github.com/jeshikoJ

PROFESSIONAL SUMMARY

Full-Stack Web Developer with demonstrated expertise in building **production-ready, scalable web applications** using **JavaScript, Node.js, React, Python, Django, HTML5, CSS3, MongoDB, PostgreSQL**. Proficient in **serverless architecture, REST API development, responsive web design, cloud deployment, database design, CI/CD pipeline implementation**. Seeking **full-stack development or DevOps engineering** roles to contribute to high-performance engineering teams.

KEY SKILLS & COMPETENCIES

HTML5 | CSS3 | JavaScript (ES6+) | Node.js | Express.js | React | Python | Django | REST APIs | CRUD Operations | Responsive Web Design | Mobile-First Design | MongoDB | PostgreSQL | Supabase | Database Design | Serverless Architecture | Vercel Deployment | AWS (EC2, S3, IAM) | Git Version Control | GitHub | CI/CD Pipelines | Agile Methodology | Problem Solving | Team Collaboration | Admin Dashboards | API Integration | Performance Optimization

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python | **Front-End:** HTML5, CSS3, React, Responsive Design, Mobile-First Approach | **Back-End:** Node.js, Express.js, Django, REST API Development, CRUD Operations | **Databases:** MongoDB, PostgreSQL, Supabase, Database Design & Optimization | **Cloud & DevOps:** Vercel, AWS, CI/CD Pipelines, Infrastructure Setup | **Tools:** Git, GitHub, VS Code, Linux CLI, Agile Tools

EDUCATION

B.E. Computer Science & Engineering | Bethlahem Institute of Engineering, Kanyakumari, TN | GPA: 7.2/10

PROFESSIONAL EXPERIENCE

Software Development Intern | Crescent Infotech (Jun-Aug 2024) | Bangalore, India

- **Developed & deployed 3+ production-ready software prototypes** using Python & machine learning, reducing manual data operations by ~30%
- Executed 2+ **complete end-to-end development workflows** involving requirements analysis, coding, testing, deployment, & maintenance
- Implemented **CRUD operations, REST API integration, & database schema design** with 100% functionality validation
- Collaborated with **5-member cross-functional engineering team** in Agile environment (2-week sprints)
- Strengthened expertise in Python, JavaScript, full-stack development, & software engineering best practices

PROJECTS & TECHNICAL ACHIEVEMENTS

Full-Stack Restaurant Ordering & Admin Management Platform

Tech Stack: HTML5, CSS3, JavaScript (ES6+), Node.js, Express.js, Vercel Serverless Functions, Supabase (PostgreSQL), REST APIs, Git

- Built fully **responsive, database-driven web platform** enabling customers to browse menu, manage cart, submit orders securely
- Developed **serverless Node.js API endpoints** on Vercel with CORS security, dynamic request routing, & error handling
- Designed & implemented **PostgreSQL database schemas (orders, menu_items, customers tables)** on Supabase for transaction management
- Created **custom Admin Dashboard** with real-time order status updates (Pending/Preparing/Delivered), menu management, dynamic pricing modifications via PATCH endpoints
- Optimized for **mobile WebView deployment** with CSS notch support, safe-area-inset implementation, responsive 2-column grids
- Engineered **client-side fallback mechanism** with local static menu for 100% uptime during database updates

Full-Stack E-Commerce Web Application

Tech Stack: HTML5, CSS3, JavaScript (ES6+), Django Framework, MongoDB, REST APIs, AWS EC2, Git

- Designed & deployed fully functional **e-commerce platform with 5+ core modules**: product listing, shopping cart, user authentication, order management, payment integration
- Built **10+ responsive UI pages** using HTML5, CSS3, JavaScript with **mobile-first responsive design approach**
- Implemented **Django backend with 3 MongoDB collections** (products, users, orders) following **MVC architecture with CRUD operations**
- Deployed application on **AWS EC2 instance** with environment configuration, security setup, monitoring
- Optimized front-end performance through efficient component rendering & asset management

PROFESSIONAL CERTIFICATIONS & TRAINING

Web Development (NOVI TECH, 2023) | **Python Full Stack Development** (E-MAX, 2023) | **Cloud DevOps Fundamentals** (SLA/Softlogic Academy, 2024) | **Data Science using Python** (VEI Technologies, 2023) | **Interaction Design & Prototyping** (FEATHER, 2023)

AREAS OF INTEREST & CAREER GOALS

Full-Stack Web Development | Serverless Architecture | Cloud Deployment | REST API Development | Database Design & Optimization | DevOps Automation | CI/CD Pipeline Implementation | Scalable Application Architecture | Agile Software Development
